ACCIDENT TO YOUNG WOMAN

Grays Leave for Camp at Mt. Gretna—Water Supply From River.

Times-Dispatch Bureau, 5 Bollingbrook Street, (Telephone 145), Petersburg, Va., July 24.

While the members of the board of engineers of rivers and harbors who visited Petersburg yesterday afternoon kept their counsel as to what they will do, they were evidently impressed by the statement and suggestions made by them about needed improvements in the Appomattox harbor and river, and by their personal inspection of the condition of the harbor and river it is believed the board will recommend an adequate appropriation for needed improvements, among which will be included a concrete dam in place of the one washed out by the spring freshet. The members of the board were given assurance of cooperation by the city and the Norfolk and Western and Coast Line Railroads. The prospect and that improvement will be made that will give assurance of protection against floods, but improvement in sanitary conditions, and by permanent harbor and river channel eight feet wide and twelve feet deep.

The members of the board were the guests of Mayor Cameron, while here, and were given a drive in the Mayor's automobile to Richmond when they left the city.

She was brought to the hospital here to have the injury treated, and is now at home on Franklin Street.

The Petersburg Grays, Captain McGee, sixty-six, left this afternoon at 1:30 o'clock for the Norfolk and Western Railroad, for a ten-day encampment at Mt. Gretna, Pa. On the route the Grays were joined by other companies of the regiment. The company is composed of enthusiastic young men, thoroughly drilled, who take pride in the morale of their command.

Water Supply From River.

In consequence of the rapidly diminishing supply of water in the city reservoirs, and the continued drought, water from the river will be turned on tomorrow through pipes leading to canal of the Virginia Waterways and Power Company. This will afford an abundance of water for consumption about one-tenth of the consumers in the city will be served with river water without filtering.

JUDGES' DECISION JEERED BY CROWD

Queen Worthy Declared Winner of \$10,000 Stake After Five Heats.

Detroit, Mich., July 24.—After five heats fought here, in the first four of which a different horse finished in front each time, Queen Worthy, owned and driven by Thomas A. Murphy, of Coudersport, N. Y., was declared winner of the Merchants and Manufacturers' \$10,000 stake for 224 class trotters, chief attraction of the grand circuit program at the State Fair Grounds this afternoon. No starter was able to capture three of the five heats.

Queen Worthy, having the best standing at the end of the race, received the major portion of the purse.

In both the first and fifth heats the decision of the judges in placing Murphy's mare in front was met with jeers and yells from the stands. The Wandering seemed to have won by half a length in the first heat, and Herve Hoot by a head in the fifth, and the crowd refused to be satisfied with the official victory.

The 224 pace was easy for Warner Hall. He won in straight heats, coming to the front each time when ready. Mary G. was best in the 222 trot. Cox kept her back in the bunch until nearly home, then came along to win in straight heats.

There was nothing in the 207 pace to worry Braden Direct.

Petersburg Plays Brilliant and Snappy Game and Wins by 5-to-0 Score.

Norfolk, Va., July 24.—Southpaw Hedgepeth today had everything, and Norfolk was unable to find him for needed hits in the pinches. Finneran was ineffective. The feature of the game was the snappy and brilliant work of the Petersburg infield, in which Manager Busch at short excelled. The Norfolk team played in different ball. Blackstone led the hitting, with a double and triple to his credit. The score:

SENATE APPROVES SUNDRY CIVIL BILL

(Continued From First Page.)

ing laws and for the reorganization of the Government Printing Office. That bill, however, has not passed the Senate, and there seems to be little chance of its passage by the House soon. It affects about 100 employees of Uncle Sam's print shop and involves an increased expenditure of about \$12,000 per year.

An appropriation of \$25,000 to carry out the law directing the director of the census to procure additional statistics regarding the amount of leaf tobacco in the country was inserted at the suggestion of Senator Bradley.

Fight on Tariff Board.

When the bill was reported from the committee of the whole to the Senate, a more important procedure, the Democrats renewed several of the fights they had unsuccessfully made in the committee of the whole. The first was over the provision for continuing the Tariff Board at an expenditure of \$125,000.

The vote was practically the same as in the committee of the whole. Last night Republican regulars and insurgents voted for the continuance of the board, while the Democrats, with the exception of Senators Chamberlain, Newlands and Thornton, voted against it.

Funds to Hire Clerks.

To hasten the work of liquidating the claims and increasing the pensions of the veterans of the War with Mexico and the Civil War, under the Sherwood-Smoor pension bill passed by Congress in May, an amendment was put in the sundry civil bill, which yesterday afternoon making \$400,000 available for the hiring of temporary clerks in the Pension Bureau.

Senator Pomerene, of Ohio, offered the amendment. It specifies the salaries of the temporary clerks are not to exceed \$1,200 per year and that clerks who have been employed in other government departments and are fitted for the work may be employed without complying with the requirements of the civil service law.

Senator Warren, in charge of the supply bill, declared that he understood the matter was to be taken up by the House Committee on Appropriations in connection with the general deficiency bill, but Senator Pomerene replied that he had some indirect information that the House committee had declined to make provision for the extra work.

Rate of Adjudication.

"There will be about 100,000 claims filed under the act of May 11, 1912," Mr. Pomerene continued. "The committee of the whole appeared before the subcommittee of the House Committee on Appropriations and testified that at that time they could only handle about 400 cases per day. They can now handle about 600. At that rate it would take 150 days to adjudicate these claims."

The Senate also accepted the amendment providing an appropriation of \$225,000 for continuing the work of the Tariff Board for another year. The House had attempted to end the existence of the Tariff Board by a failure to provide money for its work, but the Senate, by its action yesterday, insisted upon the continuance of the work. This will prove one of the troublesome questions in the conference over the bill.

Tariff Board Appropriation stirred up much discussion yesterday afternoon in the Senate. The Democrats, with the exception of Senators Chamberlain, Newlands and Thornton, voted for the provision, while the Republican regulars and insurgents stood firmly for it.

Democratic Plan Bitten.

The Democrats tried to substitute a provision for a congressional tariff board, to be composed of five senators and five Representatives, but that was defeated by a straight party vote of 31 to 21. The Senate, however, accepted an amendment by Senator Bricker requiring the tariff board to report once a year to Congress.

It was in that connection that Senator Borah introduced the term "bull moose" into the Senate records. It had been asserted that some expert of the tariff board had supplied information to Democrats and Republicans in Congress.

"Would it be proper," asked Senator Borah, "to require this gentleman to supply information also on the 'bull moose party'?"

It was asserted at once that any information in the possession of the tariff board would be available for the "bull moose" organization.

The Senate accepted, but in modified form, the House provision restricting the employment of former employees and officials of the Department of Justice as private counsel at larger salary than could be received during their regular employment in the department. The time which must elapse before a former employee may be hired as a special counsel was reduced from two years, as fixed by the House, to six months, at the suggestion of Senators Hoke Smith, Democrat, of Georgia.

News of South Richmond

South Richmond Bureau.

The Times-Dispatch, 1001 Half Street.

Claiming that an account of his arrest, appearing in the Richmond Virginian, was libelous, inasmuch as it was a gross exaggeration, tending to injure his reputation, Rhodes & Rhodes, yesterday entered suit against the Richmond Virginian, to compel it to publish a retraction and to pay damages in the sum of \$5,000.

Damage in the sum of \$5,000 are sought. An action for malicious prosecution, instituted by Rhodes against the Chesapeake and Ohio Railway Company, is now pending in the circuit court of the city.

Both suits are the result of the same arrest.

New Street Lights.

Two lights of thirty-two-candle power each have been erected on corner of 11th and Main streets, and will be in use for the first time last night. The lights will be of great assistance to the motemen of the street car, who frequently have serious accidents along the narrow street on dark nights. The only other illumination now on this street is two small gas lamps, which do very little good.

Bridge Floor Repaired.

Traffic on the bridge has been greatly hampered all week by workmen who are putting in new planking to replace the worn boards. While the bridge was repaired only a year ago, it is again in bad shape. Heavy teams in a steady stream pass over the bridge all day and cut the planks to pieces.

Installing Fire Bell.

The fire bell recently purchased by the citizens' league of Woodland Heights is being installed at Twenty-eighth Street and Semmes Avenue, and in less than a week will be ready to ring out alarms of fire or to sound the riot call. Its location is in the exact center of the suburb, and is sufficiently large to be heard for several miles.

Fire Buckets, Ladders and Other Apparatus for the Volunteer Fire Fighters.

The fire buckets, ladders and other apparatus for the volunteer fire fighters has not yet been purchased, but Chairman Price, of the fire committee, claims he will have his men ready to cope with any conflagration in a short time.
